# Q-Coat Metallic Epoxy

Synergy Building Supplies

Q-Coat Metallic Shimmer Pigments are a range of high quality, lustrous powder tints that can be used alone or mixed together to create millions of custom colour options. Every Q-Coat Metallic Shimmer Epoxy coating is a truly unique piece of art allowing for the ultimate expression of colour interior design.

- Mix with epoxy to create unique finishes.
- Use alone or combine with other colours.
- High quality tints for long life.
- Available in 200-gram or 50-gram jars.
- Use with a high quality, 100% solid, clear epoxy such as Noroo Colour Floor Epoxy or Noroo Crystal Epoxy.

Ask your local stockists for more information.
